

Dear Dr. Woodward;

I am writing this letter to let you know how invaluable your level 1 and level 2 Veterinary Dentistry courses have been for our hospital. I have sent three veterinarians and our lead certified veterinary technician to your courses and I believe these seminars are the best, most practical and helpful continuing education meetings I have ever attended in the twenty years of being a veterinarian. The didactic material is presented in an organized format and the hours spent with practical hands-on training by your experienced team is invaluable. In fact, with the techniques learned at your seminars and the manner in which it has had such a notable positive impact on the quality of our dental care for our patients, I have made the decision to make your course a requirement for all of the veterinary associates at our hospital.

Thank you for opening my eyes to a far better way of performing veterinary dental procedures and educating our team in providing better patient care and client service.

Sincerely

Cat Cross DVM DABVP
